

Cumberland Lodge

exchanging views, inspiring minds

Applications are open for the Cumberland Lodge Fellowship 2023-25, offering doctoral students the opportunity to join our charity in working towards more open and inclusive societies.

Our two-year Fellowships are designed to fit around, and enhance, your doctoral studies. They provide a unique opportunity to develop the communications, public engagement and interdisciplinary skills that will set you apart.

The Fellowships are open to students of any age who are enrolled on a doctoral programme within a UK university. Fellows have opportunities to take part in programme events and consultations, pushing their boundaries beyond their own academic disciplines.

All types of doctoral candidates are eligible to apply, including full-time, part-time and those on non-traditional pathways and professional doctorate programmes.

The application deadline is 31 May 2023.
